

A more visible service

Residents will now be able to instantly recognise when the new 'Estate Services Officer' Stuart White, is in their area as the organisation's imagery has been added to the vehicle used.

This new service was introduced in the Summer of 2018 and is part of our greater emphasis on health & safety, tenant focussed activities and attention to detail.

The handy van operates on a full time basis, helping to ensure our estates are in the best condition possible. Stuart carries out regular estate inspections, tests all fire alarms weekly, carries out minor repairs, removes dumped items and assists some of our more vulnerable tenants where possible.

Make sure you look out for Stuart and say hello when he is visiting your area.
